Forecast for Sunday 26 Feb 2023

Weather: A bright start in western parts, although eastern parts are liable to see areas of cloud. A dry day on Sunday but cloud increasing generally during the day, especially for eastern areas towards the Black Mountains.

Chance of cloud-free hill tops above 600m: 80%, some lower cloud drifting in from the east.

Low cloud and visibility: Patchy low cloud above 500m at times particularly affecting eastern mountains towards Hay on Wye otherwise visibility will be very good around the Brecon Beacons with good views especially in the west towards Fforest Fawr.

**Level above which ground is expected to be frozen/snow is expected to settle.*

Meteorologist's View

Feeling very chilly in the morning on the mountains, especially in fresh northeasterly winds but freezing level lifting to around 600m in the afternoon.

Recent rainfall: measured at Neuadd: altitude 353m

Recorded at	Last 24 hours:	Last 48 hours:	Last 72 hours:
03:00 on Sat 25 Feb 2023	0.8mm	1.4mm	6.4mm

Forecast for Monday 27 Feb 2023

Weather: A cloudy day but some brighter spells towards southwestern areas near The Black Mountain. Perhaps a light shower around the east but generally a dry settled day.

Maximum wind: Northeasterly 10-15mph

Chance of cloud-free hill tops 600m: 80% some low cloud drifting in from the northeast.

Low cloud and visibility: Patchy or scattered cloud likely at times above 600m, more especially affecting northeastern upland areas but the cloud may thicken everywhere in the afternoon. Very good general visibility beneath the cloud layer.

Temperature: **Valleys:** Plus 3 rising to 7 Celsius.
At 600m: Minus 2 Celsius rising to Plus 1 Celsius
Freezing level: 600m rising to 800m
